
Title: Nanoriens

Author: Unknown

In this, the first of our series dealing with nanoriens, we shall endeavor to explain their origins. That is, where they can most readily be found, if one can use

Lore Keep's Note The Rest of the pages are missing. However I did a little research, and found this excerpt regarding the creatures in question:

This stone is called a nanorien.. or what once was a nanorien. Nanoriens are actually living creatures. They are whar holds the life force and sustains... demons.

They are generally found within the center of a demons chest, and can be taken when you slay a demon.. however they lack the power they hold once the demons body dies.
